

**AMANNGIRRBACH**

# GUARANTEE CERTIFICATE

Anyone who works with Ceramill TI-Connect, TI-Forms and TI-Connect SR components (titanium bases, titanium bases SR, adhesive copings SR, titanium abutment blanks, screws and screws SR) from Amann Girschbach is in safe hands. Not only the quality and durability of these original Amann Girschbach components are guaranteed - there is also a guarantee on the third-party implant.

Amann Girschbach not only provides a 30-year guarantee for all components manufactured and supplied by Amann Girschbach but also a guarantee for the implant of another manufacturer used with these components.

Immediate restorations are expressly excluded from this guarantee.

The guarantee for the implant applies, for example if the manufacturer of the implant used with titanium base SR restricts or refuses the guarantee because it has been used with an Amann Girschbach titanium base SR.

Further details can be found in our guarantee conditions, to which we hereby expressly refer.

## Amann Girschbach guarantee for our Ceramill TI-Connect, TI-Forms and TI-Connect SR components and implants of other manufacturers

Guarantee conditions: From 01-04-15 we provide a guarantee on our original Amann Girschbach components and also a guarantee on implants of other manufacturers used in combination with our components as follows: We guarantee to resupply our products without additional costs, if they have material or manufacturing faults or they do not meet our quality standards.

We guarantee the reimbursement of proven material costs for a replacement implant if an implant of another manufacturer was combined with our components after its healing period and the manufacturer of the implant refuses its guarantee because it was combined with our components. The guarantee term for our components is 30 (thirty) years from delivery. We provide a guarantee on the implants of other manufacturers as long as it also is provided by the manufacturer but a maximum of 30 years from delivery.

No new guarantee or extension of the guarantee is connected with the guarantee service.

**No guarantee is provided in the case of:**

Immediate restorations | damage of our components or implants due to external effects such as accident or comparable events as well as incorrect treatment | failure of the implant of other manufacturers, e.g. material or manufacturing faults | failure of our components or implants with contraindication such as alcoholism, diabetes or drug addiction | failure to observe or use information available from Amann Girschbach at the time of treatment (in the instructions for use etc.) as well as recognised dental medical procedures before, during and after treatment | Further claims and consequential damages, e.g. laboratory costs or costs of hospital and / or dental treatment.

This voluntary guarantee applies alongside the statutory guarantee rights and product liability and does not affect these. In addition, our General Terms and Conditions of Sale apply.

The assignment of rights from this guarantee requires our consent. As at: April 2015.

Area of application: The Amann Girschbach guarantee applies only in countries in which these original Amann Girschbach components are sold.
